There was a merry twinkle in Supt. Conklin's eyes as he stepped one side, took out his watch and called time; while Shannon, armed with a rope, and Snyder with a fresh chew of tobacco, advanced in double file on the apparently slumbering reptile.

Shannon, who had been to the Wild West show, hastily made a noose in the rope and cast it with such dexterity that he almost caught one of the hippopotami in the ad-

joining tank.

The second round was more decisive. By a sudden and adroit movement, Snyder caught the reptile's tail, which he clung to with a vice-like grip, while Shannon's second cast of the rope, was more accurate, as it caught the 'gator just in front of the fore leg. The reptile's struggles to free itself were terrific. Snyder's grip was broken, and the two men clung to the rope, carefully avoiding the threatening tail and equally danger-ous testh.

Finally, exhausted by its struggles, the alligator remained motionless, but distended to double its breadth with rage.

The rope was secured, and the men retired to their corners and rubbed each other

down.

Time was again called by Supt. Conklin, and Snyder, still fresh but panting a little, stole up in the rear and again secured a tailgrip, while Shannon hastily took a half-hitch around the 'gator's nose. Then, before the reptile could make up its mind for another struggle, the leather collar was buckled around its neck and the chain secured to the item stake. ron stake

Referee Conklin at once awarded the victory to the men, who modestly received the congratulations of their comrades.

It might here be added that when the reptile's wrath evaporated the swelling also decreased, so that now the collar has slipped over its forelegs and is firmly located in the centre of its body, whence no amount of struggling can dislodge it.

Fallen into Vulgar Hands.

In the window of a curiosity shop on the east side, lying among a lot of old junk, an EVENING WORLD reporter saw the sword and cabbard that formerly belonged to a man who was once a prominent county officer.

The sword is elegantly mounted with the Masonic insignia, and probably cost \$60 when new. The owner of the shop asked

when new. The owner of the shop asked \$20 for it.

When asked how he came in possession of the relic he said he bought it at a pawn-broker's sale. He admitted that he practised a little blackmailing game by keeping it in the window exposed to curious eyes, but excused himself on the ground that he "must sell it one way or another, and if I can't do it any other way I must shame some of his friends into buying it,"

He also had an engraved badge, made of gold, that was presented to a wrestler by a well-known sporting man, and which could not have cost less than \$100. He wished to dispose of it for \$25.

A small diamond-studded badge, which was formerly the property of a "blood-and-thunder" actor, could be bought for a small per centage of its real value. The actor, whose name is clearly visible across the face of the badge, heard that his keepsake was for sale and he came down and demanded that it should be taken out of the window.

When the dealer retugal he said he would

LOTS OF MONEY IN BOBTAILS.

With but One Horse, No Conductor and Short Route, Each Car Makes a Fortune. The idea generally prevails that the reason conductors are not employed on most of the cross-town lines is because the companie cannot afford them.

This is doubtless a fallacy, and the arguments to prove it to be such are many. and

ments to prove it to be such are many. and should be convincing. They are these:

Crosstown roads are not more than one-third as long, as a rule, as the longitudinal lines. Their rolling stock is lighter, and so is their track. Less money is required to build and equip, and much less to keep their road-bed in repair, than is expended by the lines running lengthwise of the city.

One horse, too, does the duty of nearly four animals on the long lines. Passengers, as a usual thing, ride a shorter distance in them, but they collect for a ride of an avenue block as much as the Third avenue line would for a ride from the Post Office to Harlem with two men to look after the safety of the passenger and two horses to draw the car.

Of course the longer lines have more of

Of course the longer lines have more of a territory to draw on for their patronage, but how much more when it is considered that the crosstown lines have a goodly portion of Long Island and a large share of the Western world which reaches New York by the East and North River ferries?

The comparison of the cost of maintenance and running and the receipt of the two classes of surface roads undoubtedly gives the bobtail lines the benefit of greater profits, and while actual figures are not given because not at present obtainable would seem to indicate the undoubted ability of those companies which maintain and operate such objectionable systems of transportation to em-

Another appeal is made to the ladies who

Mrs. Geist met THE EVENING WORLD phy-sician at the door yesterday full of gratitude. for her child, owing to timely treatment and a free ocean sail, had almost recovered. A wonderful change was to be seen.

A sorrowful case is that of Mrs. Zielberger's baby, of 66 Goerck street. The little one had been under the care of THE EVENING WORLD physician for the past two weeks. It seemed to improve somewhat at first, but later it became worse again. It is very weak. The poor mother, who is a Polish woman and has not been in this country long, does the best she can for the child, carrying it constantly, but it is very difficult to make her understand how to wrome the food women's

Poor Johnnie has curvature of the spine. Owing to the breaking down of the spinal column he is considerably shorter than he was a year ago, which worries him a great deal, as he thought he was going to be a "great big man."

Last week his mother took him for a free sail to Rockaway on Post's line. He told everybody aboard that his uncle owned the boat and had given him a ticket. He thought everything was done for his special comfort and accommodation, and although he got'a little seasick, it did not detract enough from his enjoyment to deter him from begging the doctor for another free sail, which was granted.

Never Lost Heart. Bartly Campbell, the well-known playwright, died yesterday afternoon at the State Homosopathic Asylum for the Insane, at

Mr. Campbell was taken there in November, 1886, suffering from paresis, induced by overwork. It was thought some time ago that his mental faculties would be restored; he gained flesh and became more subdued. This condition of things, however, did not last long, and for several months before his death he was confined to his room.

death he was confined to his room.

Bartley Campbell was born in Pittsburg forty-five years ago, and began life as a reporter on the Leader. Subsequently he became dramatic critic. Later he started the Southern Magazine in New Orleans, but it met with a speedy death. Mr. Campbell was plucky and never lost heart.

His first effort as a play-wright was made in 1870, when he wrote a very sensational piece.

Schmoll Chowder Club left its headquarters, 341 East Houston street, bound on its annual chowder. The steamer Rosa took the party from the Third street dock and at about 10 A. M. the

dock at College Point, L. I., was reached. Here the excursionists were met by Mr. Donnelly, of Donnelly's Boulevard Hotel, who with the standard bearer, Theodore Schmoll. led the march to the hotel. Prof. Merz's band followed the leaders and then came the officers and members.

After a very enjoyable breakfast the games of foo ball, baseball, &c., were indulged in. In the game of football William J. Bennett, Superintendent of Station D. East New York, excelled every one, with August Miller, of Waterbury, Conn., second.

Dinner was taken at about 4 P. M., and after three hours more of enjoyment the club started for home, reaching the city at 8.30 P. M. The procession was then formed at the dock and the club went to its headquarters, where revely was kept up until a

The Keenan children at 5 Batavia street, have entirely recovered under THE EVENING WORLD doctor's care. Mrs. Keenan desired the physician to see a sick child of a friend in Park street, near Duane, and was guided there by bright-eyed Katie Keenan.

Here was a pitiful case. A boy about eight years of age had been ill with pneumon a, but was now convalescent and would soon be able to go out. But he has no shoes and it is unsafe to venture without them. The weak, thin little invalid was reclining on an old couch, trying to while away the tedious hours by fixing an old and decripit pair of roller skates. A picture book would be very welcome to this sick child.

His parents are very poor, but worthy. His father is a type moulder out of employment, and his mother is patiently waiting for Willie's entire recovery so that she can go to be weight to be a second of the se

The little one had been treated by a quack doctor, whose application had aggravated the disease very much. The poor little baby was suffering so severely from the intense itching that its mother was compelled to tie its hands to keep it from tearing its face.

A soothing and cooling application was given by The Evening World physician, which relieved the little one's agony very much and gave the tired little child a chance to court "Nature's sweet restorer—balmy sleep."

POOR BARTLEY CAMPBELL. The Sad Death of a Play-Writer Who

His first effort as a play-wright was made in 1870, when he wrote a very sensational piece called "Through the Fire." It was founded on the railroad riots in Pittsburg and scored a failure. It was given afterwards under another name, but with a smilar result.

Success, however, came later. Mr. Campbell was a most prolific writer. Among the plays that came from his pen were "Fate," "Peril." "On the Rhine," "Risks," "A Heroine in Rags," "Van the Virginian," "How Women Love," "The Heart of the Sierras," "Clio," "Fairfax," "The Galley Slave," "My Geraldine," "Siberia," "Separation," "Friend and Foe" and "Paquita." At one time Mr. Campbell had four companies on the road.
